

Academic Honesty Policy

(Students)

THE INTERNATIONAL SCHOOL BANGALORE (TISB)

A registered member of HMC, BSA & TAIISI

Rationale

The purpose of the policy is to develop a set of values and skills among students that promotes honesty and integrity. It is to ensure that students take responsibility for their actions and the consequences that accompany them.

Measures to be taken to practice Academic Honesty:

- Any homework assignment that needs research for extra information should have appropriate citations and bibliography.
- Constant review and monitoring of the basic elements of research will develop a habit of academic honesty in students.
- TOK will be used to encourage dialogue related to ethical practices.
- A common citation style MLA (Modern language association) will be used by students across all subjects.
- Grade 11 and 12 students will have a session on importance of academic honesty.
- Importance of academic honesty will be reiterated when teaching each element in IB e.g. EE, IA etc.
- Before every exam students will be reminded about the possible malpractice that can happen during exams.
- Posters provided by IB regarding academic honesty will be displayed at strategic locations in school.
- Each year IB students will have a session about research skills.
- To have a centralised record of incidents related to malpractice.

Roles and responsibilities

Student:

- To be aware of all possible ways to practice academic honesty.
- To be aware of different forms of malpractice and the consequences associated with it.
- To practice acknowledging other people's work in simple class assignments and develop a habit of appropriate research practices
- To adhere to all school deadlines as this will allow them to have sufficient time to complete and revise their work.
- To seek help of their teachers when they are in doubt regarding techniques of referencing.
- To provide a signed declaration that all work submitted by them is authentic

Parents:

- To be aware of all aspects of academic honesty and guide their children accordingly.
- To encourage children to ask their teachers for advice whenever they are finding difficulty with their work¹.
- To ensure that they utilise all the opportunities provided by school to develop specific skills.
- To encourage them to follow school deadlines.

Academic Dishonesty ²

This includes:

plagiarism: this is defined as the representation of the ideas or work of another person as the candidate's own.

collusion: this is defined as supporting malpractice by another candidate, as in allowing one's work to be copied or submitted for assessment by another.

duplication of work: this is defined as the presentation of the same work for different assessment components and/or diploma requirements.

any other behaviour that gains an unfair advantage for a candidate or that affects the results of another candidate.

Examples of Malpractice that refer to written examinations:

- taking unauthorized material into an examination room (such as cell/mobile phone, written notes).
- leaving and/or accessing unauthorized material in a bathroom/restroom that may be visited during an examination
- misconduct during an examination, including any attempt to disrupt the examination or distract another candidate
- exchanging information or in any way supporting the passing on of information to another candidate about the content of an examination
- failing to comply with the instructions of the invigilator or other member of the school's staff responsible for the conduct of the examination
- impersonating another candidate
- stealing examination papers
- using an unauthorized calculator during an examination, or using a calculator when one is not permitted for the examination paper
- disclosing or discussing the content of an examination paper with a person outside the immediate school community within 24 hours after the examination."

Important tips for effective citing and referencing³

- Students will use a common citation style, MLA (Modern Language Association) for all academic writings in all their subjects.
- Students are expected to give acknowledgement for any material that is not their own. This may be a written, oral or an electronic product.
- Common knowledge does not need to be acknowledged, but if a student is ever in doubt whether a piece of information is common knowledge or not, it is always safe to cite.
- Students should acknowledge sources using citations and a bibliography.
- If the work is directly the words of another person then it should be in quotes.
- Paraphrasing is when the student rewrites another person's words in his/her own words. This is then acknowledged using a citation. Students should be careful while paraphrasing, if this is not done correctly it can be considered to be plagiarised.
- Citations is a way of making a reference to a source in the body of the essay. This can be done using a footnote.
- Bibliography is an alphabetical list of all the references used in the research work.
